

What to Expect

COVID-19 Vaccination

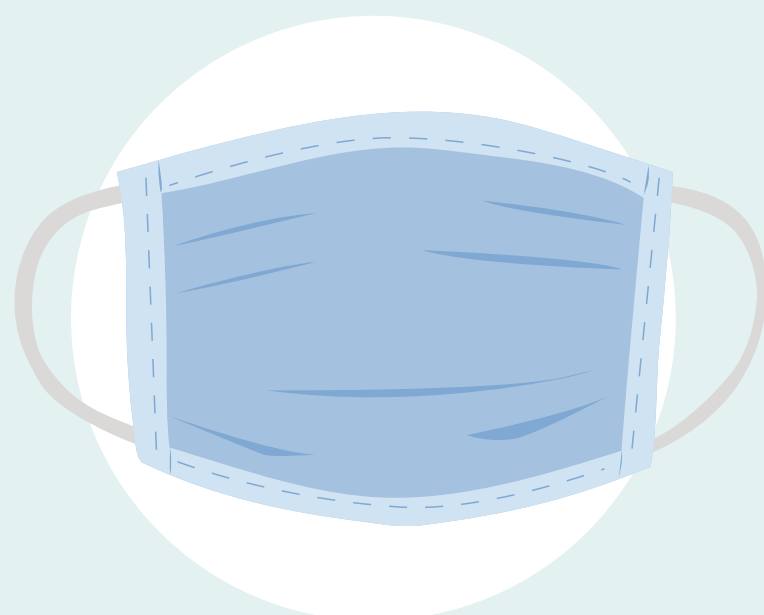

What to bring:

your health card

assistive device (if needed)

mask

My Information

My Name: _____

My Doctor: _____

My Address: _____

We give patients voice

aphasia wallet card

At your vaccination appointment:

Clinic staff will be wearing full PPE

gloves
a mask
a face shield

They will ask if you have any COVID-19 symptoms before you enter the building.

You will give your name and contact information.

The staff will ask you a number of questions.

If you do not understand, ask them to:

- write it down
- speak slowly
- give you time to understand
- repeat
- say the message in another way

They will ask for your consent or permission to get the vaccine.

yes

no

They may ask for consent or permission to:

- give your socio-demographic data such as race, household size

This is voluntary.

They will ask you pre-vaccination screening questions.

Please use the aphasia-friendly version if it helps.

They will ask if you have:

- any COVID-19 symptoms
- a history of serious allergic reactions
- received any vaccinations recently

The nurse or staff may ask about your:

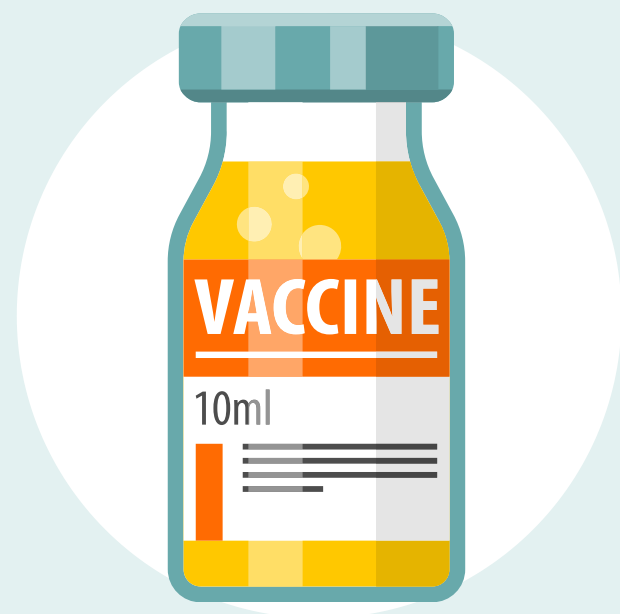

- immune system
- allergies
- medical history
- medications

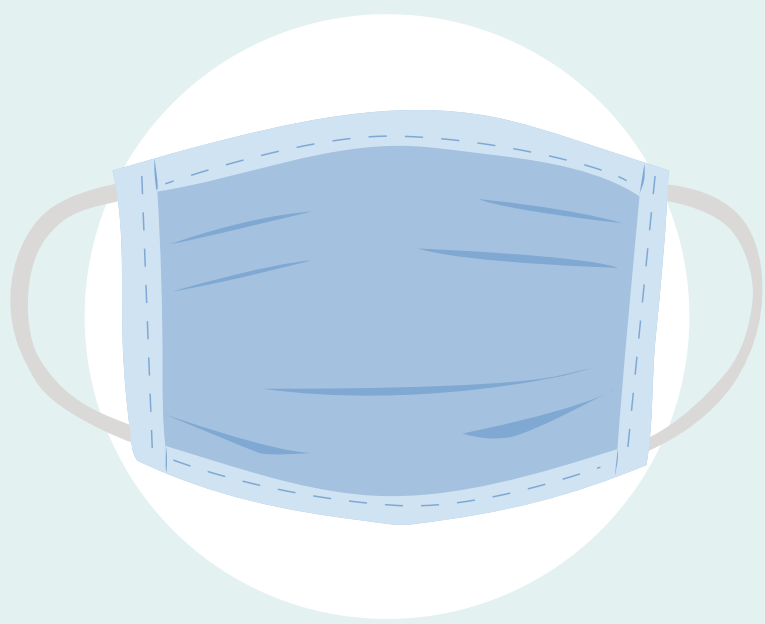

After the shot, you will wait for 15 minutes to make sure that you do not have an allergic reaction.

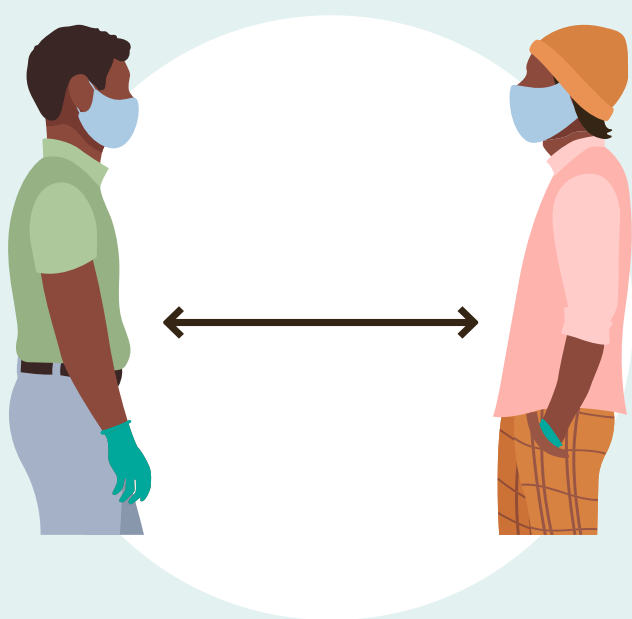

Staff will give you a paper receipt showing that you received the vaccine.

After your vaccination:

continue to wear your mask

maintain social distancing
